

# ABOUT US

Welcome to My Patio, where our friendly team of expert craftsmen and designers specialise in the manufacturing, design, and fabrication of Australian steel patios, carports and pergolas. With a combined experience of over 10 years, we take pride in using top-quality Australian-made products to create outdoor spaces that seamlessly blend quality, functionality, and aesthetic appeal. Each patio is meticulously crafted in-house, reflecting our commitment to excellence and innovation.

**“Just Build it”**

## Insulated Raised Flat Patio

A Insulated Flat Patio offers year-round comfort, providing a cozy retreat from the elements with its advanced thermal protection, ideal for enjoying outdoor living in any season.

## Flat Patio

A flat roof patio offers an economical solution for expanding outdoor living space, seamlessly blending with homes requiring unimpeded views from second-story windows or wide soffits. Its straightforward design maximises functionality while maintaining an unobtrusive aesthetic, ideal for enhancing homes with minimal investment.

## Raised Skillion

A flat roof patio offers an economical solution for expanding outdoor living space, seamlessly blending with homes requiring unimpeded views from second-story windows or wide soffits. Its straightforward design maximises functionality while maintaining an unobtrusive aesthetic, ideal for enhancing homes with minimal investment.

## Gable

A gable patio is a type of outdoor structure with a triangular-shaped roof, resembling the inverted V-shape of a gable on a house. This design allows for increased ceiling height and better ventilation, making it a popular choice for creating stylish and functional outdoor living spaces.

## Carport

A carport is a covered structure, typically attached to a house or standing independently, designed to provide protection for vehicles from the elements such as rain, snow, and sun exposure. Unlike a garage, a carport usually has open sides and a roof supported by posts or columns, offering a convenient and cost-effective solution for vehicle shelter.
